

simple is beautiful

We Are NUDE

We live in a confusing world;
too many choices, too many products,
too much 'noise'

But NUDE believes things can be
different; the remedy simple.

Simple is beautiful, pure, clear,
transparent.

Simple is useable, clean, uncluttered,
practical.

Simple is convenient, reliable,
professional.

Simple is all of these things,
and also the reason why things are so
rarely simple.

NUDE considers actual and specific
needs, then refines them to their
essence. The final object is thus both
easy to understand and work with.

NUDE believes less equals more, that
form works best when it meets function.
Where everything is appropriate in the
right place at the right time, the right
delivery for the right need.

NUDE also believes in an 360 degree
approach, where the entire architecture
of the dining experience is taken into
account. Our products are thus created
to enhance and enliven the atmosphere
of dining, whether in a bar, bistro,
or restaurant.

NUDE glassware is always fit for
purpose. It is practical, sturdy, and
usable.

We pay huge attention to our clients'
needs, and never lose sight of the need
for functionality.

This idea of practical and aesthetic
integration is the guiding principle behind
NUDE, and is reflected both in our mind
set and our culture.

The result is our promise reflected in
glass.

It is simple...

It is NUDE.

The NUDE Style and Design Vision

Contemporary

One of our missions is to design and create collections of lead-free crystal glass specifically manufactured for the hotel and restaurant industry. Our focus is on delivering elegant, practical, and relevant solutions for the modern dining and entertaining experience; nothing more, nothing less.

Simple

NUDE believes simple is beautiful, that form is function, and less is more. This is equally true when it comes to the way we do business. We like to build straightforward, simple, and long-term relationships serving the needs and requirements of everyone involved.

Sensuous

NUDE takes pleasure seriously and recognises the importance of establishing a dynamic and vibrant atmosphere. Attention to detail is paramount, yet at the same time there must always be room for people to feel comfortable, to breathe. NUDE glassware supports and embellishes rather than overwhelms, the immaculate crystal adding a sense of refinement and beauty to any environment.

Experimental

NUDE is never afraid to take risks. We feel it is the only way of creating something inspirational. Individuality is important, and NUDE fearlessly investigates innovative ideas. We are constantly inquisitive and work hard to develop dynamic collaborations with artists and designers. At the same time, we make sure to retain a sense of simplicity and fun.

A new era... A new dining experience.

When it comes to precision glassware, NUDE offers a complete solution for the hospitality industry. Known for our design excellence, our portfolio delivers exceptional products. But we believe in simplicity. Nothing should detract from the skill of the chef or choice of the sommelier. The character of the restaurant should be enhanced by the elements it contains rather than dominated. NUDE glassware is therefore stunning yet subtle, made to blend perfectly with its surroundings, both honouring and adding to the ambience.

While working to deliver the perfect range of glassware, NUDE also focuses on practical requirements.

Our lead-free crystal is designed to marry excellence with dependability and practicality. This respect for the realities of the hospitality industry lies at the heart our relationships with our business partners.

BEST WITH THE BEST

NUDE & MIRAZUR

AN INTERVIEW WITH 3 MICHELIN STAR CHEF MAURO COLAGRECO

Why did you decide to use NUDE glassware at Mirazur?

I chose NUDE glassware for its different style and also for the lightness of the glass itself. With that kind of glassware we can use one glass for the wine pairing instead of many different glasses, which can be overwhelming. It becomes like a show for the client.

Do you think that the quality of food and food service and the atmosphere and the aesthetics of a restaurant have a significant influence on each other?

I believe that the gastronomic experience begins with the person's arrival at the restaurant, not just with the tasting of a dish. Each element –food, service, atmosphere and aesthetics– is part of a coherent whole that will provide a broader and richer experience for the senses and in the minds of the people who visit us. This year we have renewed the interior and we continue with work in other areas of the restaurant according to this philosophy.

Does glass, as a material, have a particular meaning or beauty for you as a chef?

Of course, glass is a very interesting material for chefs. We can give glass whatever form and color we wish and we must use fire to do it! It's just like cooking.

Where do you most often find your inspiration for the creative process of cooking?

Inspiration is an unanticipated process, which cannot be predicted, but in my case most of the time inspiration comes from the ingredients I find in the gardens, or that I discover in the market. From there, I like to play with new combinations. I work with the organoleptic properties of the ingredients, but I also think about their origins, the history related to each ingredient, and the way we usually work with it...

In 2006, how did you originally want the gastronomic experience to feel at Mirazur? What influenced or inspired you while you were creating the concept?

Although Mirazur has evolved over time, I had the idea from the first day: I did not want to offer only dishes to customers, but a real experience. I wanted to offer a "trip" and for the customer to trust me and let himself be drawn into the experience. It is a challenge that, for me, requires great responsibility and creativity to support customers in their desire to be surprised. In a menu, there is much more than ingredients. There is emotion, associations that will occur in the memory and the personal and unique universe of each person in the encounter with a smell, a color, a texture. For me, this is "the trip".

Like people, restaurants probably change naturally over the years, but Mirazur just keeps winning awards like this year's Best Restaurant 2019 award. What do you think has been the key to maintaining your success over time?

The secret is to always evolve. I've never worked for the prizes, to follow the achievements of others. I work to feel free in my creations. I work to meet people and make them experience a unique moment. Not being afraid to follow your own passion is the key.

Besides Mirazur, I know that you also own a chain of Argentine hamburger restaurants, Carne. What attracts you to owning these two very different types of restaurants?

For me, there is good cuisine and bad cuisine. The important thing is not who the public is but what the values of the restaurant are. We always cook according to the same principles –using only excellent ingredients and respecting nature –whether it is for a wide audience or haute cuisine. The foundation is the same.

Have you ever used or are you still using bare glassware at home? If so, which part(s) do you use and why?

We use the Bare glass for gin and tonics because it's light and strong. The taste is different with the touch of a NUDE glass.

REDEFINING SIMPLICITY

Ever since its inception, NUDE has maintained a singular mantra - SIMPLE IS BEAUTIFUL. We have incorporated it into every aspect of our work: from first concepts to design, to manufacture, to presentation. This belief has not only influenced our decision making, it has defined our brand. Everything NUDE does, everything NUDE represents, every item NUDE produces, celebrates this way of thinking. But as important as this is, so is the concept's wider significance.

We are aware that the current system effects the dreams and these dreams shapes our designs. For that matter, NUDE shares its simple and sustainable spirit with bars, restaurants and all hospitality professionals.

NUDE does everything with care, offers variety of products from different categories with the aim of functionality and meeting all the needs for professionals and its customers.

Our Stem Zero and Ghost Zero collections designed by the NUDE Design Team / Umut Sinan Karaca, are designed to maximize pleasure of wine and to highlight the taste of wine. The glasses are so fine and so light that it defies belief. Yet they are strong and reliable, thanks to our Ion Shielding Technology. Such is the remarkable quality of the glass that it creates a sensation of weightlessness, that the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

Our Savage collection, designed by world-renowned award-winning bartender Remy Savage, combines the modern era cocktail crafting with NUDE style of simplicity and purity. Together it is intertwining aesthetic, functionality and durability so that each item is perfectly made to enhance the savour of the drink and as well as the experience of crafting it. Its small measures prevent the waste.

COLORFUL PERSPECTIVE

The 21st century point of view is the gathering of different concepts and forming a new trend. Mixologists are reflecting the spirit of era we currently live by mixing different tastes and forming a new one. Rock & Pop collection brings these concepts together and presents its hospitality customers the glasses with different spirits.

"I wanted the tableware collection for NUDE to have a pop-art, decorative, modern sensibility that would feel distinctly fun. For all the designs in the project, I capitalized on ethnic or various periodic references."

Umut Karaman

"I was inspired by the rich geometric language of ethnic works of art and tried to use an eclectic point of view to create popular objects that were dynamic and modern and even suggestive of design's future," says the designer of Rock & Pop glassware illustrator Umut Karaman which shows that the designs are unique, colorful but simple.

Changes and improvements in trends shape the expectations of customers. Unlike previous years which functionality was in the foreground, nowadays emotional functionality has taken over. Rock & Pop collection combines emotional and functional experience with NUDE's sophisticated attitude. In the end, it takes icon-busting to create an icon. It takes courage, rule breaking and creativity to make one's mark on the street. NUDE celebrates the complexity -on the street, in glass, or inside ourselves- that it takes to create something genuinely new, unique and perfectly simple. A new and fun way for professionals to use their creativity.

NUDE WINE

Our extensive range of wine glasses is something NUDE are both known for and are proud. We understand that people, like wine, are varied, with a multiplicity of tastes and needs. To celebrate that fact, we have created a wide selection of wine glasses –both hand and machine made– that we feel serve every purpose.

NUDE is also aware of the requirements of the hospitality industry and constantly evolve our collections to suit the zeitgeist, attitude and location.

We passionately feel that the choice of glass enhances the drinking experience. It helps establish the dynamic, and finishes the table in a perfect way. NUDE wine glasses also add to the sense of ceremony and theatre. They engage with the emotions, intensifying a sense of conviviality. At the same time, NUDE never believes in being overprescriptive. Our products solely exist to enliven, encouraging any atmosphere to shine.

Our wine glasses are therefore made for a myriad of locales from the simple to the ornate, the relaxed to the refined. NUDE products illuminate the dining space, delivering a reliable and compelling set of qualities best suited to your needs.

What if it was possible to create a glass so fine, so elegant, so exquisite, that it could almost make you feel as if it didn't exist?

That nothing came between you and the enjoyment of your favorite wine.

It couldn't be done, surely?

Our designers at NUDE asked themselves the same question, but after a huge amount of work and dedication, they come up with the answer.

We call it... Stem Zero

Stem Zero is a simple and elegant range of highly refined glassware made to satisfy the most discerning wine connoisseur.

The glass is so fine and so light that it defies belief. Yet it is strong and reliable, suiting all manner of occasions, both formal and informal.

Such is the remarkable quality of the glass that it creates a sensation of weightlessness, that the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

The result is a glass that feels no more than a whisper, a kiss on the lips, encouraging you to enjoy wine to the full.

Some look tough but are so fragile.
Some look fragile but tougher than any other...

The new Stem Zero with Ion Shielding Technology reinforces the previously delicate collection, making it twice as strong and flexible as other handmade glasses of similar thinness.

NUDE SIGNATURE COLLECTIONS

The Signature Collections are a series of ongoing dialogues between creative genius, exquisite materials and glass. NUDE offers the platform, process, craftsmen and the furnace. The design itself is manifested by the collaborating partner who brings their personal values to the process. The NUDE Signature Collections push the boundaries of what's achievable, questioning the creative possibility of things. In doing so, they deliver items that are both compelling and original.

Ran Arad

Ron Arad

An icon as an architect and industrial designer, Ron Arad has always ignored the notion of formal disciplines and boundaries. He is a creator in the purest sense, his portfolio of work is a testament to his creative genius and free spirit. He defines design as 'the act of imposing one's will on materials to perform a function'. He is a constant innovator, questioning, challenging, rethinking and reinterpreting the objects that surround our lives. The Ron Arad Signature Collection for NUDE includes iconic pieces such as the 'DecanteRing' and 'Wine Party', both masterfully hand-crafted in lead-free crystal.

DECANTERING

As someone once said: "Wine is just a conversation waiting to happen." It is in that spirit the DecanteRing exists. A symmetrical cylinder of perfectly blown glass, this beautiful artefact enables the wine to breathe properly while letting light and movement play around the liquid. The degree of craftsmanship involved is extraordinary, the glass cut and polished to perfection. A wonderful conversation starter.

RED OR WHITE

A flirtatious range including a decanter, jug and two glasses. The way the glass leans mirrors the way people bend closer to hear a conversation or whisper a secret. The shape of the glass also makes reference to the tipsy-like state a party engenders. Also note the upside down wine glasses. No need to waste time when moving from white to red; a twist of the wrist and one can proceed uninterrupted.

Ingenious, playful, intuitive and practical, the Wine Party range is a trio of glasses designed for the party experience. These are perfect for buffet events or business gatherings.

GLAZZ

The inspiration for the Glazz stacking glasses comes simply from considering a way of stacking glasses that avoids all the usual problems like locking together, breaking or being damaged and scratched, which spoils the look and experience during use. The Glazz design avoids any of this damage to the surface of the glass when stacked, especially around the rim where you drink from. The result is a distinctive, reassuringly weighted glass that retains a crystal clear smooth finish and increases its lifespan.

NUDE DRINKS

As well as catering to wine and spirit drinkers, NUDE has also created a range of complimentary glasses for other drinks. These work as stand alone items or as part of a set. NUDE feels it is important to deliver an integrated experience, where each element of glassware compliments the other. The glasses made for our soft drink range have of course been finished to the exact same high degree of specification.

AHOY

Ahoy Non-Slip All-Purpose Glass synthesises the vintage and the contemporary. Ergonomic, practical, and balanced, it is suitable for a variety of drinks, both soft and alcoholic. Its convex brim also makes it perfect for hot or cold beverages, and its silicone-coated base prevents the glass from slipping. The space-saving Ahoy glass is stackable, and thanks to its four-sided composition, feels secure in the hand. NUDE has worked hard to understand the needs of people who love to sail, while at the same never forgetting our passion for unique design.

HEPBURN

Simultaneously ethereal and worldly, soft and hard, simple but complex, subtle and straightforward, the 9 piece Hepburn barware collection embodies the same complexities. The cocktail shaker, mixing jug, martini glass, mixer glass, 'alchemy glass' (for the creation of cocktails with a more intense flavour) and tumbler feature the soft curves and clean lines of the leading lady, and set the scene for creating an experience instead of merely a drink.

ALBA

'Alba' is Gaelic for Scotland, and this collection pays tribute to the spiritual home of whisky. The elegant glasses are punctuated by a hand-engraved and cleverly deconstructed tartan pattern. The decanters, also incorporating the ingenious tartan etching, are punctuated by a unique stopper which leans omnidirectionally inviting the more dedicated whisky lover to point the stopper in the direction of Scotland.

ISLANDS

Available in three stem sizes, the Islands collection was designed to be simple, modern, pure and supremely functional. Amplifying these qualities are the transparency and soft brilliance of the glass. With its slightly flared lip, the whisky tumbler directs the spirit's flow to the tip of the tongue, emphasizing its smooth, silken feel in the mouth. Meanwhile, the broad bowl of the glass, tapering toward the top, concentrates the liquid's aroma and flavors, optimizing the sensory experience.

ARCH

A sophisticated yet witty piece of craftsmanship, the Arch whisky bottle, a set of two glasses, and a matching bowl, are a group of perfectly balanced items that seem to defy logic but sit solidly on any surface. The subtle curvature of the glass base reflects the delightful swirl of a single malt, creating a sense of energy to an activity often perceived to be placid. The pieces have a subtle interlocking design that allows them to fit together imaginatively.

WAYNE

The Wayne series consists of drinking glasses designed to underscore the aesthetic purity and radiance of crystalline glass. Each piece features a variety of reflections created by bold vertical scoring, equivalent to crisp pleats in a dress shirt. A horizontal channel at the bottom of each glass deepens the luminosity of each. Meanwhile, it clearly distinguishes the upper and lower elements of the objects and enriches the occasional overlay of cuts.

CHABLIS

A great white wine, especially one that is young, in order to maximise its depth and complexity, has to be decanted the same way as red wine. Yet as decanting takes place, it's important to maintain the cool temperature of the wine. To make sure of this, we have created a range of carafes and decanters especially for white wines. They allow full aeration and, at the same time, keep the wine chilled.

PIGMENTO

Studio FormaFantasma emphasize the manual genius and honor the traces left by the artisan's hand during the crafting of their tableware. Pigmento reinterprets a traditional hand-making technique used to add hue to glass in the process of mouthblowing an object, an intuitive process that generates a different result every time. Through the milky material, amorphous accents of colourful pigments are blown, smoke-like, emphasising the serendipity and uniqueness of each piece.

FROMAGE

A hand-blown dome of transparent glass, the Fromage makes a stunning table display. Sitting on a circular slate base, the glass is in the form of a giant teardrop allowing air to circulate around the contents. A small vent blown into the glass prevents food from 'sweating'. As the domes are all hand-blown, not one of them is exactly the same.

NUDE ROCK & POP ARTIST COLLECTION

Like hand-blown glass –liquid and solid, brittle but unbreakable– humans are unique: Genetically, we're almost identical, but we differ in tiny ways that make each of us unrepeatable.

As a young, modern brand, NUDE celebrates singularity. We are endlessly inspired by the expressive potential of street culture and the myriad musical genres to which it has given rise. Street art and music are felt, not reasoned. They are languages that promote self-expression in infinite forms but, at the same time, are understood by anyone and everyone.

NUDE DECORATION

To complete the dining and hospitality experience, NUDE has created a number of expertly-made glass items which we feel add character and personality to the table. Still honouring the sensibility of simplicity and style, these items deliver the finishing touch. We passionately believe that glassware should be a dynamic part of the room, helping to create both atmosphere and theatre. These pieces reaffirm the notion that for NUDE, hospitality is not simply about catering, but creating.

MEMENTO MORI

Inspired by his Punk Rock roots, Erdem Akan has always been keen to mix the dramatic with the playful. While respecting the beautifully macabre aspect of the human skull, he chooses to place it on its side – as if sleeping – while at the same time making it useful. It's a bold statement, full of wit and attitude. The skull acts as a bowl, and what you decide to put in it – a simple flower, coloured candies, pens and pencils – allows you to make your own statement about life... and death. The skulls come in three iterations of glass: crystal clear, opaque white, and jet black, each one providing a striking addition to any room.

MIST

From the designer Tamer Nakışçı, this trio of vases are made in an extraordinary clear yet corrugated glass. The rippled effect creates an optical illusion reflecting the different colours of the contents in an almost magical way. Flowers particularly are beautifully presented in these vases, the undulation blurring the stems, bringing into focus the colour of the petals.

An innovative range comprising of two elegant crystal vases and two bowls, all with an arresting copper base. At once solid yet ethereal, the vases seem to disappear as they reach their apex, allowing the contents to take over the drama. NUDE LIGHTING

Light allows the world to take shape.
Without it, everything dissolves into
nothingness.

Light is illusive and ethereal, bringing
the world to life in an instant.

Light is pure and luminescent...
Revealing the simple beauty that
surrounds us.

BLOW

An extraordinary and original piece created by the Swiss-based and award-winning designer Tomas Kral. "The two parts of the lamp are assembled together by simple rubber bands which refer to the top of a hot-air balloon. This minimal connection creates a tension sufficient to maintain the stability of the lamp, and also allows quick disassembly for changing the bulb." Light and airy, the lamp, though sturdy, seems to float.

Lead-free crystal glass - its benefits.

As you know, design itself is never enough. The hospitality industry is built on usability, longevity, and efficiency. NUDE understands this and holds these values at a premium. There are specific benefits of using lead free crystal glass, some practical, some aesthetic. Our machine-made crystal offers high durability thanks to its composition and manufacturing process. It has a ~99% transmission of light and the glass itself has a reflective index of $>1,520$, reducing chromatic aberration and intensifying its sparkle. The glass is also distinguished by its superior sound, delivering a sharper, more resonant ring. Our glassware can thus be appreciated by all four senses!
